SUMMARY

Motivated and detail-oriented Java Full Stack Developer with a strong foundation in Java, Spring Boot, React.js, SQL, and Microservices. Seeking an opportunity to contribute to a dynamic organization where I can apply my technical skills, solve real-world problems, and continuously enhance my knowledge while delivering high-quality software solutions.

PROJECT

Event-Driven Microservices-Based E-Commerce Backend with Admin Dashboard

Tech Stack: Java 21, Spring Boot, React.js, PostgreSQL, RabbitMQ, JWT, Docker, Maven, Git

- Developed a scalable e-commerce backend using a microservices architecture with Spring Boot.
- Built independent services for Authentication, Product, Inventory, Order, Payment, and Notification management.
- Implemented event-driven communication using RabbitMQ for asynchronous service interaction.
- Developed a React.js Admin Dashboard to monitor products, orders, inventory, payments, and system health.
- Secured REST APIs with JWT authentication and Role-Based Access Control (RBAC).
- Used PostgreSQL for data persistence and Docker for application deployment.
- Followed REST API standards, clean architecture, and Git-based version control.

WORK EXPERIENCE

Proximity IT Solution , Raipur Chhattisgarh

July 2022 - Jan 2024

- Worked as a Junior PHP Developer, contributing to the development and maintenance of dynamic web applications.
- Assisted in building server-side logic using PHP while supporting front-end integration.
- Developed and maintained web applications using PHP, MySQL, HTML, CSS, and JavaScript.

PrisaSoftSolution , Raipur Chhattisgarh

Mar 2022 - Jun 2022

- Gained practical experience in front-end and back-end development during structured web development training.
- Developed websites using HTML, CSS, JavaScript, and modern frameworks, focusing on responsive design and performance.
- Collaborated on web development projects, improving coding, debugging, and deployment skills.
